Promoting and protecting the health of the public and the environment

PUBLIC NOTICE

Notice # 17414-01
September 11, 2015

This notice is to inform the public that the S. C. Department of Health and Environmental Control (Agency) is taking public comments on a Corrective Action Plan (CAP) and a Conditional No Further Action (CNFA) decision. This CAP addresses the cleanup of soil and groundwater contamination at the facility listed below. The contamination was caused by petroleum products that were released during the operation of the Aboveground Storage Tanks. Based on current data, the release does not pose a threat to human health or the environment.

FACILITY: Bishopville Cotton Gin, Parcel # 024-00-00-081-000, 200 Block S. Lee St., Bishopville, SC

APPLICANT: Southern States Cooperative INC, PO Box 26234, Richmond, VA 23260-6234

SUMMARY OF CAP: Petroleum and petroleum byproducts naturally break down over time through chemical, physical, and biological processes. These processes are called natural attenuation. Periodic monitoring has been conducted by Dunklee & Dunham to ensure that the contamination has decreased and remains below levels of concern.

PUBLIC COMMENT PERIOD DEADLINE: The deadline for submitting written comments is **(five) 5 PM October 09, 2015**. Any interested person(s) may submit written comments concerning the cleanup to the Project Manager listed below. Please bring this notice to the attention of persons whom you know will be interested in this matter. Where there is a significant degree of public interest, the Agency will hold a public hearing.

Robert A. Dunn
SCDHEC- UST Management Division
